What SPENO does for CO₂ reduction

- We promote using the train instead of airplanes
- We work in a gas free office and only use green electricity
- We only purchase energy efficient hardware
- We limit the maximum use of the engine and minimize the time to warm up the motor
- When available we purchase electrical hand tools
- We investigate the use of electric trains regularly

Objective

SPENO International wants to reduce their CO₂ emissions by 15% in 2025 compared to 2019 (relative to total kilometres grinded)

Sub-objectives
